

Gentiva Consulting has clinical and operational solutions to improve quality and efficiencies within your agency while ensuring appropriate reimbursement.

Under PPS, your bottom line is closely tied to clinician patient assessments and documentation. Comprehensive patient assessments and precise OASIS documentation also drive patient outcomes and accuracy of quality measure results. Gentiva Consulting provides clinical services to help your agency sustain financial performance within regulatory guidelines while improving quality outcomes. Our customized clinical solutions include:

- Clinical and operational assessments
- Development of effective staffing models
- Workflow process assessment and process improvements
- Staff model implementation support
- Clinical documentation review
- OASIS and assessment strategy training
- Compliance audits
- Coding audit and training
- Clinical chart review
- Clinical utilization management
- Interim clinical management
- Mock state, federal and accreditation surveys

- Performance improvement initiatives
- Policy and procedure assessment
- Customized training and education modules
- Productivity analysis and development of appropriate standards
- Pay-per-visit impact analysis and implementation support

Here's what our clients are saying about Gentiva Consulting:

"We engaged Gentiva Consulting for a full agency assessment and successfully implemented their recommendations for process improvements, efficiencies and better reimbursement management techniques. Our gross profit is now running at 35% to 41%. I'm very happy with my investment with Gentiva Consulting."
