

Gentiva Consulting's financial solutions will support informed strategic decisions and boost your bottom line.

Gentiva Consulting provides a wide range of financial solutions and expertise to help you maximize your agency performance by accelerating cash flow, identifying better ways to manage appropriate reimbursement and benchmarking key metrics. We can help you get your agency on course and keep it there. Financial services for home health, hospice and home medical equipment include:

- Strategies to accelerate cash flow
- Revenue recovery services
- Analysis of PPS data to promote profitable decisions
- Analysis of revenue trends, cost structure and profit margins
- Analysis of statistical information and monthly financial results
- Due diligence and feasibility services
- IT, billing and collections services
- Productivity analysis
- Pay-per-visit impact analysis
- Strategies to stimulate growth and profitability
- Full financial analysis
- Pre-audit and preparation for recovery audit contractors
- Preparation for competitive bidding

Here's what our clients are saying about Gentiva Consulting's financial expertise:

"As a small critical access hospital-based home health and hospice agency, we have limited resources and expertise. We turned to Gentiva Consulting for help. In just a few months, Gentiva implemented an efficient and effective revenue cycle process and now provides IT, billing and collections services, which has had a very positive impact on our agency's performance. Gentiva has far exceeded my expectations, and I look forward to our agency's growth and ability to provide excellent care for the patients we serve under the direction and guidance of Gentiva Consulting"
